

Publication de l'équipe de Moélisation  
Numérique et Dynamique des fluides  
2006 à 2009

## Publications de l'équipe seule

1. F. Gallaire, M. Ruith, E. Meiburg, J.-M. Chomaz, and E. Meiburg. Spiral vortex breakdown as a global mode. *J. Fluid Mech.*, 549 :71–80, 2006.
2. F. Gallaire, M. Marquillie, and U. Ehrenstein. Three-dimensional transverse instabilities in detached boundary layers. *J. Fluid Mech.*, 571 :221–233, 2006.
3. R. Pasquetti. Spectral vanishing viscosity method for large-eddy simulation of turbulent flows. *J. Sci. Comp.*, 27(1-3) :365–375, 2006. Paper presented by R. Pasquetti at the ICOSAHOM 04 Congress, Brown University, June 21-25, 2004.
4. R. Pasquetti. Spectral vanishing viscosity method for high-order les : Computation of the dissipation rates. In *CD-ROM Proc. of the ECCOMAS CFD 2006 Congress, Egmond aan Zee (Holland), September 5-8. 2006.*
5. C. Baroud, J.-P. Delville, F. Gallaire, and R. Wunnenburger. Thermocapillary valve for controlling droplet motion in microchannels. *Phys. Rev. E*, 75 :046302(1–5), 2007.
6. M. Minguez, E. Serre, and R. Pasquetti. Les of turbulent wake of the ahmed car model by svv approach. In *Bulletin of the APS*, volume 52, pages 35–35. 2007. Orateur : M. Minguez.
7. M. Minguez, R. Pasquetti, and E. Serre. Simulation des grandes échelles du sillage turbulent du corps d'ahmed par une méthode de viscosité spectrale évanescence. In *Proc. of 18ième Congrès Français de Mécanique, Grenoble, 27-31 aout. 2007.* Orateur : M. Minguez.
8. H. Holmas, D. Clamond, and H.P. Langtangen. A pseudospectral Fourier method for a 1D incompressible two-fluid model. *Int. J. for num. methods in Fluids*, 58(6) :639–658, OCT 30 2008.
9. D. Clamond. Surface gravity waves in Lagrangian description of motion. In , volume of , page , 2008. Proc. ICTAM Conf., Adelaide, Australia, Aug. 24-29.
10. C. Sollogoub, E. Felder, Y. Demay, J.F. Agassant, P. Deparis, and N. Mikler. Thermomechanical analysis and modeling of the extrusion coating process. *Polym. Eng. Sci.*, 48(8) :1634–1648, 2008.
11. E. Akervik, U. Ehrenstein, F. Gallaire, and D. S. Henningson. Global two-dimensional stability measures of the flat plate boundary-layer flow. *Eur. J. Mech. B/Fluids*, 27 :501–513, 2008.
12. U. Ehrenstein and F. Gallaire. Two-dimensional global low-frequency oscillations in a separating boundary-layer flow. *J. Fluid Mech.*, 614 :315–327, 2008.

13. K Lamnawar, A Maazouz, and P Laure. Reactive functionalized multilayer polymers in a coextrusion process : Experimental and theoretical investigations of interfacial instabilities. *Int. J. Material Forming*, 1 :763–766, 2008.
14. R. Pasquetti, R. Bwemba, and L. Cousin. A pseudo-penalization method for high reynolds number unsteady flows. *Applied Numerical Mathematics*, 58(7) :946–954, 2008.
15. R. Pasquetti, E. Séverac, E. Serre, P. Bontoux, and M. Schaefer. From stratified wakes to rotor-stator flows by a svv-les method. *Theor. Comput. Fluid Dyn.*, 22 :261–273, 2008. Paper presented by R. Pasquetti at the EUROMECH colloquium 469 : Large-Eddy Simulations of Complex Flows, Dresden, October 6-8, 2005.
16. JL. Guermond and R. Pasquetti. Entropy-based nonlinear viscosity for fourier approximations of conservation laws. *C.R. Acad. Sci. Paris, Ser. I*, 346 :801–806, 2008.
17. M. Minguez, R. Pasquetti, and E. Serre. Spectral accurate les of turbulent flow over bluff bodies : From the square cylinder to the car model. In *Proc. of Conf. BBAA VI, Milan, July 20-24*. 2008. Orateur : M. Minguez.
18. M. Minguez, R. Pasquetti, and E. Serre. High order les of the turbulent “ahmed body” wake flow. In *CD-ROM Proc. of Conf. ETMM7, Limassol (Cyprus), June 4-6*. 2008. Orateur : R. Pasquetti.
19. G. Rousseaux, C. Mathis, P. Maissa, T.G. Philbin, and U. Leonhardt. Observation of negative-frequency waves in a water tank : a classical analogue to the Hawking effect ? *NEW JOURNAL OF PHYSICS*, 10, MAY 13 2008.
20. G. Rousseaux. Comment on “Momentum Transfer from Quantum Vacuum to Magnetoelectric Matter”. *PHYSICAL REVIEW LETTERS*, 100(24), JUN 20 2008.
21. G. Rousseaux, J. Kruithof, P. Jenffer, and J.E. Wesfreid. Oscillation-induced sand ripples in a circular geometry. *PHYSICAL REVIEW E*, 78(1, Part 2), JUL 2008.
22. G. Rousseaux, R. Kofman, and O. Minazzoli. The Maxwell-Lodge effect : Significance of electromagnetic potentials in the classical theory. *EUROPEAN PHYSICAL JOURNAL D*, 49(2) :249–256, SEP 2008.
23. G. Rousseaux. On the electrodynamics of Minkowski at low velocities. *EPL*, 84(2), OCT 2008.
24. G. Rousseaux, B. Molin, D. Lajoie, and N. Jarry. Tapping wave energy through longuet-higgins microseism effect. In *Proceedings of the 23rd International Workshop c Water Waves and Floating Bodies è*. APR 2008. Article.

25. G. Rousseaux. Flow visualizations and piv analysis above vortex ripples. In *Proceedings of the 13th International Symposium on c Flow Visualization è and 12th French Congress c Fluvisu è, 1-4 July 2008, Nice, France*. JUL 2008. Article + Oral Presentation.
26. D. Clamond. Efficient Resolution of the Colebrook Equation. *Industrial & Engineering Chemistry Research*, 48(7) :3665–3671, APR 1 2009.
27. E.H.B. Amar, D. Clamond, N. Fraysse, and J. Rajchenbach. Mechanical Behavior of a Noncohesive Packing at Small Deformations : Deviation From Continuum Elasticity. In Nakagawa, M and Luding, S, editor, *Powders and grains 2009*, volume 1145 of *AIP Conference Proceedings*, pages 244–247, 2009. 6th International Conference on the Micromechanics of Granular Media, Golden, CO, JUL 13-17, 2009.
28. E.H.B. Amar, D. Clamond, N. Fraysse, and J. Rajchenbach. Response of a cohesionless packing to a point load. In *IUTAM–ISIMM Symp. Math. Mod. & Phys. Instances Gran. Flows.*, volume 227 of *AIP Conference Proceedings.*, pages 14–18, 2009.
29. D. Clamond. Interaction soliton – envelope soliton : A model for tsunamis predictions. In , volume of , page , 2009. Solitons in Their Roaring Forties. Nice, France, Jan. 6-9.
30. D. Clamond. Direct simulation of surface gravity waves. In , volume of , page , 2009. Workshop on numerical methods for complex fluid flows, WPI, Vienna, Austria, Sept. 21–25.
31. M.-L. Cordero, E. Verneuil, F. Gallaire, and M.-L. Cordero. Time resolved temperature rise in a thin liquid film due to laser absorption. *Phys. Rev. E*, 79 :011201, 2009.
32. E. Verneuil, M.-L. Cordero, F. Gallaire, and M.-L. Cordero. Laser-induced force on a microfluidic drop : Origin and magnitude. *Langmuir*, 25 :5127–5134, 2009.
33. P. Laure, G. Beaume, E. Peuvrel-Disdier, and M. Vincent. Numerical and experimental studies of suspensions of fiber and spherical solid particles. In *International Conference on Computational Methods for Coupled Problems in Science and Engineering - COUPLED PROBLEMS*, 2009.
34. P. Laure, G. Beaume, E. Peuvrel-Disdier, and M. Vincent. Etudes numériques et expérimentales sur les suspensions de fibres et de sphères solides. In *19ème Congrès Français de Mécanique, Marseille*, 2009.
35. G. Puaux, L. Silva, P. Laure, and M. Vincent. Calcul de la perméabilité à l'échelle du ver d'un milieu fibreux non saturé par une approche éléments finis monolithiques. In *19ème Congrès Français de Mécanique, Marseille*, 2009.

36. T. Coupez, H. Digonnet, P. Laure, L. Silva, and R. Valette. Calculs éléments finis multidomains : applications aux problèmes multiphasiques. In M Souli and J F Sigrist, editors, *Interaction fluide-structure : modélisation et simulation numérique*, pages 166–205. Lavoisier, 2009.
37. B. Braconnier and B. Nkonga. An all-speed relaxation scheme for interface flows with surface tension. *J. Comput. Phys.*, 228(16) :5722–5739, 2009.
38. P.-H. Maire and B. Nkonga. Multi-scale godunov-type method for cell-centered discrete lagrangian hydrodynamics. *J. Comput. Phys.*, 228(3) :799–821, 2009.
39. B. Braconnier, J.-J. Hu, Y.-Y. Niu, B. Nkonga, and K.-M. Shyue. Numerical simulations of low mach compressible two-phase flows : Preliminary assessment of some basic solution techniques. *ESAIM : Proceedings.*, 28 :117–134, 2009.
40. C.-Y. Kuo, B. Nkonga, Y.-C. Tai M. Ricchiuto, and B. Braconnier. Dry granular flows with erosion/deposition process. *ESAIM : Proceedings.*, 28 :135–149, 2009.
41. M. Minguez, R. Pasquetti, and E. Serre. High-order large-eddy simulation of flow over a simplified car model. *Phys. Fluids*, 20(095101) :1–17, 2009.
42. M. Minguez, R. Pasquetti, and E. Serre. Spectral vanishing viscosity stabilized les of the ahmed body turbulent wake. *Commun. Comput. Phys.*, 5(2-4) :535–648, 2009. Paper presented by R. Pasquetti at the ICOSAHOM 07 Congress, Beijing, June 18-22, 2007.
43. C. Baur, P. Bontoux, M. Kornhaas, M. Minguez, R. Pasquetti, M. Schaefer, E. Serre, and E. Séverac. High-order methods for large-eddy simulation in complex geometries. *Notes on Numer. Fluid Mech.*, 104 :309–334, 2009.
44. M. Minguez, R. Pasquetti, and E. Serre. High-order les of the flow over a simplified car model : on the influence of the reynolds number. *Europ. J. of Comput. Mech.*, 18(7-8) :627–646, 2009.
45. E. Serre, M. Minguez, R. Pasquetti, E. Guimineau, and G. B. Deng. Turbulent flow around the ahmed body : a french-german collaborative evaluation of les. In *CD-ROM Proc. of 19ième Congrès Français de Mécanique, Marseille, 24 - 28 aout.* 2009. Orateur : E. Serre.
46. JL. Guermond, R. Pasquetti, and B. Popov. Entropy viscosity for conservation equations. In *CD-ROM Proc. of the ECCOMAS CFD 2010 Conf., Lisbon, June 14-17.* 2010. Orateur : R. Pasquetti.
47. M. Minguez, C. Brun, R. Pasquetti, and E. Serre. Experimental and high order les analysis of the near wall flow over a square cylinder. In *CD-ROM Proc. of Conf. ETMM8, Marseille, June 9-11.* 2010. Orateur : M. Minguez.
48. R. Pasquetti. High-order large-eddy simulation of space-temporal development of the turbulent wake of a sphere in thermally stratified fluid. In

- Y. Nagano K. Hanjalic and S. Jakirlic, editors, *Proc. of 6th Int. Symp. on Turbulence, Heat and Mass transfer, Rome, September 14-18*, pages 313–316. Begell House Inc. New York, Wallingford, 2006. Extended paper in CD-ROM. Orateur : R. Pasquetti.
49. L. Biancofiore, F. Gallaire, and R. Pasquetti. In *CD-ROM Proc. of 19ième Congrès Français de Mécanique, Marseille, 24 - 28 aout. 2009*. Orateur : L. Biancofiore.
  50. E. Serre, M. Minguéz, R. Pasquetti, E. Guilmineau, G.B. Deng, M. Breuer, O. Aybay, M. Kornhaas, M. Schaefer, and J. Fröhlich. A collaborative evaluation of different modeling approaches to simulate the flow around the ahmed body. In *Euromech-Colloquium 504 : Large-eddy simulation for aerodynamics and acoustic, Munchen, March 23-25*. Éditeur, 2009. Orateur : E. Serre.
  51. G. Rousseaux. On the “bead, hoop and spring” (BHS) dynamical system. *NONLINEAR DYNAMICS*, 56(3) :315–323, MAY 2009.
  52. G. Rousseaux. c what classical fluid mechanics can teach us on hawking radiation è. In *Worshop EHR Towards the Observation of Hawking Radiation in Condensed Matter Systems, Valencia en Espagne organisée par Alessandro Fabbri, 1-7 Février 2009*. FEB 2009. Oral Presentation.
  53. D. Vincenzi. Polymer dynamics in laminar and turbulent flows. Summer School “Complex and Biofluids”, Cargèse, June 2009.
  54. D. Vincenzi. Split energy cascade in turbulent transport. International Workshop : Solving the Riddle of Turbulence : What, Why, and How?, Goettingen, Allemagne, May 2009.
  55. D. Vincenzi. Split energy cascade in turbulent flows. APS Division of Fluid Dynamics 62nd Annual Meeting, Minneapolis, MN, USA, November 2009.

## **Publications de l’équipe communes à d’autres équipes du laboratoire**

81. F. Gallaire and F. Rousset. Short-wave centrifugal instability in the vicinity of vanishing total vorticity streamlines. *Phys. Fluids*, 18 :058102, 2006.
82. R. Pasquetti and F. Rapetti. Spectral element methods on unstructured meshes : comparisons and recent advances. *J. Sci. Comp.*, 27(1-3) :377–387, 2006. Paper presented by R. Pasquetti at the ICOSAHOM 04 Congress, Brown University, June 21-25, 2004.
83. R. Pasquetti, F. Rapetti, L.F. Pavarino, and E. Zampieri. Neumann-neumann schur complement methods for fekte spectral elements. *J. of Eng. Math.*, 56(3) :323–335, 2006.

84. F. Gallaire, D. Gérard-Varet, and F. Rousset. Three-dimensional instability of planar flows. *Arch. Rational Mech. Anal.*, 86(3) :423–275, 2007.
85. R. Pasquetti, L. Pavarino, F. Rapetti, and E. Zampieri. Overlapping schwarz preconditioners for fekete spectral elements. In *Domain Decomposition Methods in Science and Engineering XVI*, volume 55 of *Lecture Notes in Computational Science and Engineering*, pages 715–722. Springer Berlin Heidelberg, 2007. Paper presented by L. Pavarino at the 16 th Int. Conf. on Domain Decomposition Methods, Courant Institute, New-York, January 12-15, 2005.
