

Publication de l'équipe  
Probabilités et Statistiques  
2010

- [ACL] Yannick Baraud. A Bernstein-type inequality for suprema of random processes with applications to model selection in non-gaussian regression. *Bernoulli*, 16, no. 4, 10641085, 2010.
- [ACL] Yannick Baraud. Estimator selection with respect to Hellinger-type risks. *To appear in Probab. Theory Relat. Fields*, 2010.
- [ACL] Antonio Celani, Sylvain Rubenthaler, and Dario Vincenzi. Dispersion and collapse in stochastic velocity fields on a cylinder. *J. Stat. Phys.*, 138(4-5) :579–597, 2010.
- [ACL] Pierre Del Moral, Laurent Miclo, Frédéric Patras, and Sylvain Rubenthaler. The convergence to equilibrium of neutral genetic models. *Stochastic Anal. Appl.*, 28(1) :123–143, 2010.
- [ACL] F. Delarue. Krylov and Safonov estimates for degenerate quasilinear elliptic PDEs. *J. Diff. Eq.*, 248 :924–951, 2010.
- F. Delarue and F. Lagoutière. Probabilistic analysis of the upwind scheme for transport equations. *Archive for Rational Mechanics and Analysis*, DOI : 10.1007/s00205-010-0322-x, 2010.
- [ACL] F. Delarue and S. Menozzi. Density estimates for a noise propagating through a chain of differential equations. *Journal of Functional Analysis*, (To appear), 2010.
- [ACL] Magalie Fromont, Béatrice Laurent, and Patricia Reynaud-Bouret. Adaptive test of homogeneity for a Poisson process. *Annals of IHP*, 2010. to appear.
- [ACL] Robin Genuer, Jean-Michel Poggi, and Christine Tuleau-Malot. Variable selection using random forests. *Pattern Recognition Letters*, 2010. accepté.
- [ACL] Patricia Reynaud-Bouret and Vincent Rivoirard. Near optimal thresholding estimation of a Poisson intensity on the real line. *Electronic Journal of Statistics*, 4 :172–238, 2010.
- [ACL] Patricia Reynaud-Bouret, Vincent Rivoirard, and Christine Tuleau-Malot. Adaptive density estimation : a curse of support ? *JSPI*, 2010. accepté.
- [ACL] Patricia Reynaud-Bouret and Sophie Schbath. Adaptive estimation for Hawkes processes ; application to genome analysis. *Annals of Statistics*, 2010. to appear.
