

1 year postdoc position for 2019
Université Jean Monnet, Institut Camille Jordan
funded by Project IDEX Impulsion

Applications are invited for a 12-month-postdoctoral fellowship in discrete probability at Université Jean Monnet Saint-Etienne, Institut Camille Jordan (<http://math.univ-lyon1.fr/?lang=en>), Saint-Etienne / Lyon. The position is funded by IDEX Lyon IMPULSION.

Research areas: random graphs, random geometric (hyperbolic) graphs, random walks, discrete probability in general.

Practical informations:

- The position is for one year (12 months) with a salary of approx. 27K Euro (in the case of less than 3 years experience after the PhD) and approx. 34K Euro (between 3 and 6 years experience after the PhD). For 27K Euro, it corresponds to roughly 25K Euro after taxes.
- Financial support to attend workshops / invite collaborators will be granted.
- No teaching
- A lot of activity around discrete probability going on: see the research group in probability at Institut Camille Jordan (in French) <http://math.univ-lyon1.fr/spip.php?article12&lang=fr> and at ENS Lyon (in French) <http://www.umpa.ens-lyon.fr/recherche/equipe-de-probabilites>
- The starting date is flexible, between February and September 2019. The candidate should indicate the preferred starting date in the application letter.

Application and deadline: Applications including a CV, a list of publications and an approximately two-page description of research interests should be sent by email to Dieter Mitsche: dmitsche_AT_gmail.com. Applicants should also arrange two recommendation letters (to be sent to the same address). Informal inquiries can be sent to the same address. Deadline for applications: January 15th, 2019, and then on a rolling basis.
